

Nurse Job Description – Practice Nurse

Job Title :	Practice Nurse
Role Purpose Statement	To provide practice nursing services to the practice population(s)

Role Purpose

To provide practice nursing services to the practice population(s)

Supported by the nursing team within the practice, the Practice Nurse will deliver care within the boundaries of their role and in accordance with specific practice guidelines and protocols.

As autonomous practitioners the nurse is responsible for the care delivered, demonstrating critical thinking and skills in clinical decision making.

They will focus upon supporting patients to be healthy by assessing their needs, providing nursing care, health education advice, screening activities, monitoring of long term conditions, implementing care at hospital, community or other settings, maintaining clinically accurate records and running clinics.

They will work collaboratively with the general practice team to meet the needs of patients and support the delivery of policy and procedures, and providing nurse leadership as required.

- Delivery of specialist clinics, evidence-based practice for patients with long-term conditions, management and preventative nursing interventions to all patients.
- Supporting and managing the health needs of women presenting for family planning and cervical cytology consultations
- Implement and participate in vaccination and immunisation programmes for both adults and children.
- Advise, support and where appropriate administer vaccinations for patients travelling abroad

Role Location

GPS Healthcare, Solihull.

Duties and Responsibilities

Clinical Practice

The post holder will make professionally autonomous decisions for which he / she is accountable. Providing safe, evidence-based, cost-effective, individualised patient care to include;

- **Health and Well-being**
 - Assess, plan, develop, implement and evaluate programmes to promote health and well-being, and prevent adverse effects on health and well-being
 - Utilise skills in history taking, physical examination, problem-solving and clinical decision making to establish a diagnosis and management plan
 - Support patients to adopt health promotion strategies and encourage principles of self-care
 - Offer holistic service to patients and their families, developing where appropriate an on-going plan of care/support, with an emphasis on prevention and self-care

- **Medication**
 - Provide information and advice on prescribed or over-the-counter medication, medication regimens, side-effects and interactions.
 - Work with patients in order to support adherence to prescribed treatments

- **Aural conditions**
 - Promote and deliver evidence based care for patients presenting with aural conditions.

- **Family Planning**
 - Support and advise women requesting information relating to family planning needs.

- **Minor Surgery**
 - Assist GP in providing minor-surgery sessions, coil fits and implanon fittings

- **Chronic Disease management**
 - Undertake appropriate investigation, clinical observations and interventions following agreed guidelines for patients with chronic disease e.g. Asthma, CHD, Diabetes and Hypertension.

- **Emergency Care**
 - Prioritise health problems and intervene appropriately to assist the patient in complex, urgent or emergency situations, including initiation of effective emergency care.

- **Wound Management**
 - Meet the needs of patients presenting for wound care and use dressing formulary

- **Mental health, adult and child safeguarding**
 - Recognise, assess and refer patients presenting with mental health needs in accordance with the National Framework (NSF) for Mental Health.
 - Recognise adult and child safeguarding situations and act appropriately.

- **Long Term Conditions** ➤ Work with other health care professionals to identify, diagnose, monitor, manage and treat patients at risk of or with long-term conditions, including on-drug-based treatment methods using a management plan
- **Vaccination programmes**
 - Implement vaccination and immunisation programmes for Adults and Children
 - Advise, support and where appropriate administer vaccinations for patients travelling abroad
- **Cytology** ➤ Support and manage health needs of women presenting for cervical cytology consultations

Contribution to the implementation of Services

The post-holder will;

- Apply national, local and practice policies, standards and guidance
- Discuss with team members how the policies, standards and guidelines will affect own work
- Participate in audit where appropriate

Deliver a quality service

The post-holder will strive to maintain quality within the Practice, and will;

- Effectively manage own time, workload and resources
- Reflect on own and team activities to identify risks, enhance performance and improve quality of patient care
- Work within own competence and professional code of conduct as regulated by the NMC
- Produce accurate, specific and complete records of patient consultation
- Deliver care according to the NSF and the NICE guidelines and evidence based care.
- Understand and apply statutory procedure and local guidance regarding the identification of vulnerable adults and children, domestic violence, substance abuse and addictive behaviour

Communication

The post-holder should recognise the importance of effective communication and will strive to;

- Communicate effectively with patients and carers to ensure they are fully informed and consent to treatment
- Utilise effective communication skills to support patients to adhere to prescribed treatment regimens
- Provide support, guidance and information in a format that meets the needs of the patients
- Communicate effectively with other team members and external stakeholders
- Act as an advocate when representing the patients and colleagues viewpoints to others
- Fully participate with team meetings, team activities and delivering the nursing agenda

Equality and Diversity

The post-holder will support the equality, diversity and rights of patients, carers and colleagues, to include;

- Acting in a way that recognises the importance of people's rights, interpreting them in a way that is consistent with Practice procedures and policies, and current legislation
- Respecting the privacy, dignity, needs and beliefs of patients, carers and colleagues
- Behaving in a manner which is welcoming, non-judgmental and respects circumstances, feelings priorities and rights
- Identify patterns of discrimination, take action to overcome this and promote diversity and quality of opportunity

Personal and Team Development

The post-holder will participate in any mandatory and statutory training programme implemented by the Practice as part of this employment. Actively participating in ongoing learning and development to include;

- An annual individual performance review, including taking responsibility for maintaining a record of own personal and / or professional development
- Taking responsibility for own development, learning and performance
- Understand own responsibilities and accountability in the delivery of GPN services to patients
- Disseminate learning and information to other team members in order to share good practice
- Provide educational role to patients , carers, families and colleagues to facilitate learning

Team Working

The post-holder will work as an effective and responsible team member, supporting others and exploring the mechanisms to develop new ways of working. To include;

- Work effectively with others to clearly define values, direction and policies impacting upon care delivery.
- Ensure clear understanding and utilisation of referral mechanisms within the practice
- Accept delegation from other nurses, prioritise own workload and ensure effective time-management
- Participate in and support local projects as agreed with the practice management team

Management of Risk

The post-holder will work effectively to manage risk including;

- Monitor work areas and practices to ensure that they are safe, free from hazards and conform to health, safety and security legislation, policies, procedures and guidelines.
- Ensure the safe storage, rotation and disposal of vaccines and drugs is undertaken.
- Apply infection control measures within the practice according to local and national guidelines

Utilising and applying Information

The post-holder will work effectively to accurately apply and utilise information including;

- Review and process data using accurate Read codes about patients in order to ensure easy and accurate retrieval for monitoring and audit processes.
- Understand own and other's responsibility to the individual organisation regarding the Freedom of Information Act.
- Apply patient / clinical data searches to achieve clinical goals

Confidentiality

The post holder will work effectively to ensure confidentiality at all. To include consideration of;

- In the course of seeking treatment, patients entrust us with, or allow us to gather, sensitive information in relation to their health and other matters. They do so in confidence and have the right to expect that staff will respect their privacy and act appropriately
- In the performance of the duties outlined in this Job Description, the post-holder may have access to confidential information relating to patients and their carers, Practice staff and other healthcare workers. They may also have access to information relating to the Practice as a business organisation. All such information from any source is to be regarded as strictly confidential
- Information relating to patients, carers, colleagues, other healthcare workers or the business of the Practice may only be divulged to authorised persons in accordance with the Practice policies and procedures relating to confidentiality and the protection of personal and sensitive data

Health & Safety

The post-holder will assist in promoting and maintaining their own and others' health, safety and security as defined in the Practice Health & Safety Policy, to include:

- Using personal security systems within the workplace according to Practice guidelines
 - Identifying the risks involved in work activities and undertaking such activities in a way that manages those risks
 - Making effective use of training to update knowledge and skills
 - Using appropriate infection control procedures, maintaining work areas in a tidy and safe way and free from hazards
 - Reporting potential risks identified
