

GPS Healthcare

Registration to use the Internet Appointment Booking Facility

To use the internet booking facility you need to register for the service.

You will be given your own unique User Name and Password which you should keep safe. GPS Healthcare reserves the right to remove a patient's login privilege if the system is abused in anyway e.g. repeated failure to attend appointments booked on the internet.

Please complete the following details and hand in to the receptionist. You will then be given a letter with your User Name and Password.

Name	
Address	
Date of Birth	
Telephone Number	
Mobile Number	
Email address	

I agree to keep my User Name and Password private and only use it to make appointments for myself. I understand that abuse of the system will result in losing the facility to book appointments on the internet.
